CITIZENS COMMENTS

Breon Dennis came before the Commission and gave the following comment:

My name is Breon Dennis. I'm with the Frisco Roughriders Baseball Team. I'm originally from Shreveport, Louisiana. 3228 Stonewall Street is my mother and father's address. So, basically, I'm coming home. For 222 miles it took me to get from Dallas, Texas to here. I'm here in support of YMCA, their request for a multipurpose field that they are looking to build. But with that being said, I will use my time wisely. So, I am a graduate of C.E. Byrd High School. Want to make sure you knew that. Also went to elementary Queensboro, Lakeshore and Jazz Park Middle School. And, part of the reason why I say that is the Frisco Roughriders used to be your Shreveport Captain's. So, here I am now coming home. 23 years removed from being here in the city, had asked to come out here by the South YMCA to talk about this. And what's amazing is I live in a city that has a metropolitan area, which is North Texas. And what I can tell you right now is anytime people say 'hey, are you from Texas?' I tell them all the time Shreveport, Louisiana is home. I live in Texas for tax purposes, but Shreveport is home. But I want to make sure as I support the agenda for the YMCA I want to make it very clear. My support is for my nieces and nephews. For them who are still living in Shreveport, you have the opportunity to utilize that field for our community as a whole. In the last five words of community is unity. So as we have this field, potentially being built, let's keep in mind that we want to make it very inclusive to all involved from the cradle to the grave. So, I'm not here just to lend my name as well as my stature in the community. But I want to simply say. Had it not been for my time here in Shreveport I probably never been a kid who was now the vice president of a professional baseball team. So, as I look here, Mr. Burrell want to tell you thank you for what you're doing in our community as well. My mom is still living there, but I want to make it very clear yet again. With the opportunity that's put in front of this Parish, as well as the City, we hear about crime time and time again. The deal is the kids need options and I believe that we're gonna have an opportunity for our parents to get a chance to live their dreams as well as the kids. A lot of times as a kid we usually hear about MLK, I Have a Dream speech. I'm here to make sure that the adults dream. Keep that in mind the adults dream. So, I get a chance to come here and it really stood out to me. Because I think about it. Somebody was at this podium 23 years ago speaking on my behalf. So, I want to make sure that I may not be here to see everything get develop. But I can tell you right now that if there's anything I can do to come back to lend that insight to Shreveport please keep in mind. You ever seen the movie "Man of Honor", one of the best parts about that movie was a son never forgets. And as a son of a black man and a black female, I came back home. So, by me coming back home, taking time to lend a hand in Caddo Parish, it lets you know no matter what you hear about people who may not support the city. Guess what, folks? I came home. So please don't make me look embarrassed when I go back in North Texas, because I don't like the Cowboys. But I will tell you yet again. Anytime I could come here to Shreveport. Thank you again to the YMCA. Thank you again to my dear friend Patrick Wesley. And I got a chance to meet on the plane. That's how he and I connected anytime I could

do stuff for Shreveport. Seven seconds? I want to say thank you. So, that's all I got to say.

Brandon Mars came before the Commission and gave the following comment:

Good afternoon. My name is Brandon Mars. I'm president of Shreveport Little League. And I'm here also on behalf of the YMCA to talk about the potential new fields being developed. Mr. Dennis did a great job. You know I'm heading out to a little league right after this. Go coach a baseball game. We've got 650 Kids registered with us this year. We've done a great job of building up this program. I think they told talk to y'all before about the travel options and what's going on right now with baseball nationally. The recreational league is such an important factor. It brings people together and builds community. It creates friendships, and allows people the opportunity to play the game of baseball. Allows people to play the game of baseball without spending an exorbitant amount of money. These people are traveling out of town they're having to spend a lot of dollars on hotels every night. They've got to eat out for dinner three nights a week or three times a day. And it just gets expensive. Gas prices are outrageous. We need to be able to provide an opportunity for our kids here locally and I think we're doing that and we need help. You know our facilities are outdated and I don't think much has changed since I was there playing baseball 30 years ago. It's a challenge every day with our weather, you know, April, March, pretty wet months for us. It's hard to get those fields drained. So, a lot of work to reschedule and get the kids out there to play, and that's just what we're trying to do. You know there's so much opportunity now bringing in outside teams, tournaments, whatever. We know the financial and the economical impact that it would bring. You look at complexes in small towns, like Ruston and Sterlington, Louisiana. Broussard, they've got a beautiful place. I think Shreveport is a little bit behind the time and I think we can get there and I hope that we can. It would just-it brings so much community together. This recreational league is for everybody. You know travel teams, oftentimes, they go out and try to make a team. It's like an all-star process. It's not for everybody. So, those people that don't make the team, don't get to play. And, if we don't do anything to try to support our rec division, it's going to miss out or prevent a lot of kids from being able to play baseball. And that's what we do not want to happen. Again, there's a lot of friendships that are made out there. I've got three boys and their best friends are all out there and they learned to play sports with. Gives kids an opportunity. It teaches them about teamwork and responsibility. So I think just going out there and helping us to develop this with the YMCA is a great opportunity for the City. So I'm gonna cut mine short. 36 seconds left. Thank you very much.

Shelton Harville, Sr. came before the Commission and gave the following comment:

Yes, sir. I'm Shelton Harville, Sr. I live on the 5327 La shoe place in Keithville. So, I'm not an original native of Caddo Parish. I'm from Red River, Parish God's country, but I've been here for 22 years and I've been on Shreveport Fire Department. And I'm just going to piggyback on what they said. I am one of those parents that we're always traveling, because my son, and I'm proud to say it, he is a top rated pitcher in Louisiana for the 2025 class. And the different is now he committed to Louisiana Tech and he had offers from like 20 schools before he even played first ending of the high school ball. So, what I mean by that is in Caddo Parish, y'all, were missing out. We're missing out on helping the kids and not just at the economic impact. Last summer, we traveled to Hoover, Alabama, which Hoover and Birmingham are like Shreveport and Bossier, and there were I think it was 227 teams in that one tournament. So, not only did they have the Hoover Metropolitan Center field, all the high school fields. I think one game we traveled like an hour 15 minutes. So, with that being said, I wish we had a facility like that here to hold something to where even if it's one kid that gets an opportunity, but, you know, for some eyes be on the scene or maybe three or four. But we just don't have the facilities now. I mean, you know, I'm traveling. I've made friends with a bunch of the guys from a perfect game and PBR. So, if we had a nice facility, I could ask Alex Armand, the head PBR director for Louisiana, to come up here and have a showcase. He may even donate it free and you get some kid that didn't get the exposure and numbers are good. Then, college coaches, or maybe even like the gentleman here, maybe a pro scout could pick up on somebody. So, that's the main thing. I think that facility is a great idea. I mean, obviously this is outdated job. I'm sorry. I mean, like we were in Hoover and we had a torrential rain. So, I mean a thunderstorm, and when it stopped 15 minutes later we were playing. So, we're in dire need. I mean, I'll give you an example. We were there, and this in Atlanta this year, so we're there for eight days. You think of eight days of hotel. Every hotel was filled and I think we had to stay outside the city. So, when you think of we're missing out on the tax from the gas. Every restaurant was full. Everywhere you went it was full. And I love Shreveport. Hoover, Alabama, and Birmingham, and these other places are no better than us. Actually, we've got more to do. More to do. Ruston's got a nice facility, but what can you do at Ruston? There's plenty to do here in Shreveport. So, I think we're missing out. I think that is warranted. I think. I mean it's been needed, but now's the time. So, thank you all and I'm gonna cut my cut my time short.

Ken Krefft came before the Commission and gave the following comment:

Thank you, Mr. Atkins. Members of commission, Dr. Wilson. Kenneth Krefft 157 Archer Avenue and I echo the comments of the three prior speakers. Having raised three boys who played baseball, the youngest opponent tried out at LSU for second base. Had trouble making the first team gentleman named Todd Walker in the way. I want to thank Commissioners Young and Taliaferro and Atkins for attending our Broadmoor neighborhood meeting night before last on the 17th. Triple J. They did a good job. In summary, John Paul gave us information about his interest. Very well presented. Mr. Taliaferro gave a nice handout about achievements for 2021 and Mr. Atkins summarized on a Parish-wide basis some of the things you all do. It might have mentioned triple A bond rating, but you didn't put something on which

we should be very proud. I want to encourage this Commission to move as quickly as possible on tornado warning sirens. 37 days ago, April 12th, a Tuesday, sirens went off in Benton, Minden, Homer, Haynesville, other cities. They're very helpful. Jim had mentioned smartphone notification. Well, that has merit and drawbacks. On June 11, 2010 in Albert Pike State Park in Arkansas where the flash flood warnings came, where the Caddo and Little Missouri Rivers converge, 20 people drowned because they were notified in the middle of the night by text and by email. Conversely, a year or so later, in Texas at Guadalupe River State Park in the middle of the night the campers were notified by sirens. Nobody drowned. Some camping gear was ruined. You blast them awake. It doesn't-an email and a text-won't wake somebody up who's sound asleep. Let's do what we can to move that along. Another topic the juvenile justice committee is moving along. We've had some good progress and some meetings many more to go. I am concerned as a citizen that Senate Bill 418 passed the full Senate. It undoes it makes the 17 year olds adults again. The critical dangerous 17 year olds are already treated as adults but this this bill if passed would I guess the only advantage it would save the juvenile justice fund a few bucks because 17 year olds would be paid by the adult system. And finally, I just want to thank Mr. Samuels. I have a suggestion I made it's tongue in cheek but it's sort of neat. If we have a drone next month flying spraying larvicide, I suggested we name it mosquito hawk.

Kenny Gordon came before the Commission and gave the following comment:

Thank you very much for having me. My name is Kenny Gordon, and I am a member of the England Association. And I'm here to talk about the rash of shootings in the neighborhoods. I look at you all a lot on Facebook. Now I looked at a lot of you who have come up with the ideas of trying to stop these shootings and the ideas that you've come up with are relatively good. The thing that perturbs me is this agenda that you're trying to put to it, which I see is to allow AKs in a vehicle and it's not loaded. That to me is ludicrous, because it only takes a few seconds to load an AK47. Just like it does a nine or a eight. That's not going to do anything. The remit-the original idea that you have is to ban it completely. Because I've heard a lot of you saying that with the AK47, they can come. They can carry it, because they might go to a range or hunting. No one hunts with an AK47 and no one goes to the gun range with an AK47. I also noticed that you said that this is not to prevent anyone from carrying a weapon, and I agree with you. Because like a lot of you, I carry a weapon too but it's not an AK47. I don't need an AK47 to protect me. A nine millimeter is just as good. A 35 or 22. All of those are good. An AK47 That's a war weapon. It's for war. Not to come out and do drive-bys and shoot people. That's what an AK47 for. So, I'm here to try and appease you to disregard that agenda and put it in there saying that okay, we'll let them carry it as long as it's not loaded. You need to put it in there that it's outlawed. You're not supposed to have that weapon in your car. Most of the people that have that weapon, they're young and they're stupid, and they want to shoot people. That's what it's for is to shoot people and everybody's tired of their kids and their mother and their fathers and their grandfathers getting killed. All because you got these fools riding, running around here and want to shoot each other. So my thing is, and I'm going to be looking and I'm going to post it on Facebook, those who vote for that agenda. And I'm gonna let him know that if these people vote for that agenda to let them still carry those weapons, you need to remove them because they are for the enemy. They are not for the victims. Because again, I reiterate that AK47 is to kill you. It is not for hunting. It is not for going to the range. It's to blast people and I'm gonna tell you this one point and then I'll be through. I think the reason that they use of AK47s because they can't shoot. Because a lot of you have mentioned that. Commissioner Johnson have mentioned. Commissioner Jones have mentioned. They can't shoot. Because they don't go to the ranges. So, they need a barrage of bullets in order to try and get who it is they trying to hit, and guess what, they never hit it. They always hit the innocent. So again, I would appease to you. I would ask you to not vote for that. That addendum of letting them carry that AK47 in their cars unloaded that's ridiculous. I believe that it should be outlawed. And I know I said one thing, but I'm going to say one more. The reason that those people. Okay, just give me one more minute. I just want to say that I have a lot of people following me. If you vote forward, they're going to know it. If you vote against it, they're going to know it. And I'm going to advise that they remove those individuals, vote against them that's going to vote for that. Because letting them carry that AK in their car, talking about it being unloaded, you know, it takes a second to load and then they can shoot whoever it is they want to shoot. So, if you do and I thank you Commissioner Jackson, for championing me and give me that time to express what I want to express, because I'm really passionate about the fact that these people are getting killed. I don't have any children. In my neighborhood, I try and make sure that nobody is shot. Because I have a direct link with the Chief. So, I care about people. I care about others, and I don't want to happen to anyone else. Thank you very much.

Commission does not set bonds. Mr. Jackson said that he will not get in front of something without doing proper research. He said that he was not against the concept of 17 year olds at the Juvenile Detention Center, if the space could be managed. Mr. Jackson said that he will not support parents coming down to the Commission saying that they are too tough on the teenagers who are committing these crimes and wreaking havoc on the community. He is offended at receiving calls saying juvenile bonds are too high. Mr. Jackson wanted to know what are they doing in the first place to be at CCC. How can we justify going to the judge and telling them to reduce a bond on somebody who raped somebody? So they can walk around on the street and recruit more teenagers to be a part of this, he said. Mr. Jackson said that a family conversation needs to be had about this foolishness. When you're right, you're right, but when you're wrong, you're going to get this chastising, Mr. Jackson said.

PRESIDENT'S REPORT

Mr. Atkins announced that there will be a street dedication honoring Pastor Calvin Austin this Sunday at 3:00 p.m. He also said that Martha Carter Retirement Ceremony will be held on Tuesday, May 24 at 11:30 a.m.

PUBLIC HEARING ON ORDINANCES

The President of the Commission opened the floor for anyone to speak in favor or against the following ordinance:

- *Ordinance No. 6229 of 2022, an ordinance amending the Budget of Estimated Revenues & Expenditures for the Capital Outlay Fund and the Oil & Gas Fund for the year 2022 to provide an appropriation for the construction of the YMCA Baseball Complex and to otherwise provide with respect thereto*

There being no one to speak in favor or against the ordinances, the President closed the public hearing on ordinances.

ORDINANCES (For Final Passage)

It was **moved by Mr. Jackson**, seconded by Mr. Jones, *that Ordinance No. 6224 of 2022, an ordinance amending the Budget of Estimated Revenues & Expenditures for the Riverboat Fund in the amount of \$6,000 to provide an appropriation for the Greater Shreveport Chamber Foundation and to otherwise provide with respect thereto* be adopted.

Mr. Jackson said that this came out of the Appropriations Committee favorably. He said that the vast majority of the funding will come from the City of Shreveport and through private donations.

Mr. Epperson would like to see more projects that are community and business specific. He said that the Shreveport Chamber should be doing projects such as studying economic development, etc. Mr. Epperson also said that this type of project is geared more towards the Shreveport Regional Arts Council.

Mr. Jackson said that this leadership class does have a session with the Parish. He too suggested that the local elected officials participate in that class.

At this time, Mr. Jackson's motion carried, as shown by the following roll call votes: AYES: Commissioners Atkins, Burrell, Gage-Watts, Hopkins, Jackson, Johnson, Jones, Lazarus, Taliaferro, and Young (10). NAYS: Commissioner Epperson (1). ABSENT: Commissioner Chavez (1). ABSTAIN: None (0).

ORDINANCE NO. 6224 OF 2022

BY THE CADDO PARISH COMMISSION:

AN ORDINANCE AMENDING THE BUDGET OF ESTIMATED REVENUES AND EXPENDITURES FOR THE RIVERBOAT FUND IN THE AMOUNT OF \$6,000 TO PROVIDE AN APPROPRIATION FOR THE GREATER SHREVEPORT CHAMBER FOUNDATION AND TO OTHERWISE PROVIDE WITH RESPECT THERETO

WHEREAS, the Caddo Parish Commission would like to appropriate \$6,000 in its 2022 budget for Greater Shreveport Chamber Foundation; and

WHEREAS, Greater Shreveport Chamber Foundation sponsors the Greater Shreveport Leadership Program; and

WHEREAS, the participants of the Greater Shreveport Leadership Program work collectively to select and complete a community service project; and

WHEREAS, the 44th Greater Shreveport Chamber Class Leadership Project will be the implementation of a public art project installed at one of Shreveport downtown gateways, the intersection of Marshall and I-20; and

WHEREAS, the public art project will be a mural painted on 26 pillars; and

NOW, THEREFORE, BE IT ORDAINED, by the Caddo Parish Commission in due, legal and regular session convened, that Budget of Estimated Revenues and Expenditures for the Riverboat Fund for the year 2022 is hereby amended as follows:

	<u>Budget Increase (Decrease)</u>
<u>Riverboat Fund</u>	
NGO Appropriations	
Greater Shreveport Chamber Foundation	\$6,000
Fund Balance	(\$6,000)

BE IT FURTHER ORDAINED, that if any provision or item of this ordinance or the application thereof is held invalid, such invalidity shall not affect other provisions, items or applications which can be given effect without the invalid provisions, items or applications, and to this end the provisions of this ordinance are hereby declared severable.

BE IT FURTHER ORDAINED, that this ordinance shall take effect upon adoption.

BE IT FURTHER ORDAINED, that all ordinances or parts thereof in conflict herewith are hereby repealed.

It was **moved by Mr. Jones**, seconded by Mr. Young, *that Ordinance No. 6229 of 2022, an ordinance amending the Budget of Estimated Revenues & Expenditures for the Capital Outlay Fund and the Oil & Gas Fund for the year 2022 to provide an appropriation for the construction of the YMCA Baseball Complex and to otherwise provide with respect thereto* be adopted.

Substitute motion by Mr. Burrell, seconded by Mr. Jackson, *to allocate \$500,000 to the Stewart Belle Stadium with the balance being allocated to the YMCA.*

Mr. Burrell said that he is supportive of the YMCA and what they are trying to do, but he was concerned with constructing a venue outside of the central portion of the City. He said that this was tough for children to get to the facility. Mr. Burrell also said that this is an expensive sport, and there are several children who are talented; they just need access to these types of facilities.

Mr. Burrell also mentioned that the Stewart Belle Stadium is behind the Galilee Baptist Church in Shreveport. He said that the stadium is a historical building and was named after baseball stars Riley Stewart and Albert Belle.

Mr. Epperson said that he is against the initial motion and the substitute motion. He submitted several questions to the YMCA, as well as a follow up:

1. How long was the plan in process? *Since April of 2015.*
2. Who was involved? Was school coaches involved? *Y Staff, High School and Youth Baseball Coaches.*

What high schools, youth baseball coaches; please list schools, teams and names.
3. Is the location in unincorporated areas of the Parish? Or is the location in the City of Shreveport? *The YMCA of Northwest Louisiana was incorporated in 1923, and this youth sports complex is in the City of Shreveport.*
4. Why was Caddo Parish chosen first to seek funding? *The State Capital Outlay was first, corporations were 2nd and private donors were 3rd.*
5. How much funding are you requesting from the City of Shreveport and Caddo Parish School Board? *We have not established that yet.*
6. When was the decision made to build a new Y in Forbing? Who was involved in that planning? Who administers the final decision? *April of 2015. The YMCA staff and Gro development. YMCA Board.*

Who/What is Gro development?

List all Y board members and contact information from 2015 to present.

Were any funds requested from SCTB? If so, how much?

Any funding from the Casinos? How much?

7. What was the final cost of the Forbing Y to be built? *The final cost is still being determined.*
8. Why was the Y closed in Broadmoor? *We had the opportunity to update and expand in a different location.*
9. Why was the Y closed on Hearne Avenue? *A financial decision.*
10. How much private funding has been secured for the proposed sports complex? If any, please name donors and amounts. *\$900,000.00 in private/corporate funding and \$1,445,701.37 in state funding.*
11. It appears as though Patrick Wesley is a strong advocate for this property. While he was employed as Assistant Director of SPAR, was he a strong advocate of the Y Sports Complex while he was working for the City of Shreveport to secure funding? *We never met with Patrick about the complex while he was an employee at SPAR. Patrick has been outspoken for a long time that Shreveport needs to begin capitalizing on the booming travel sports industry.*
12. Were any entities or individuals, government or private citizens, informed of the proposal or invited to participate in discussions relative to the idea of the Sports Complex from West Shreveport or West Caddo Parish? *Yes.*

List the entities, government agencies, private citizens and persons from West Shreveport/ West Caddo parish that participated in discussions of Sport Complex proposal. What time periods were they at the table?

Mr. Epperson said that he has not receive answers to the follow up questions. He is not against the project, but he is against the process of how it was brought to the table. Mr. Epperson also mentioned that there are several RV parks with amenities along the I-20 Corridor by Cargill Park. He suggested that this be taken back to the drawing board.

Mr. Chavez said that this is comparing "apples to oranges". He also mentioned that this proposal came out of the Economic Development Committee. Mr. Chavez also said that the gyms that Mr. Epperson spoke of are part of the management arm of the YMCA, and their target client is hyperlocal. Mr. Chavez said that is not what is being discussed with this ordinance. He said that this is speaking to a proposed sports complex from a \$15B industry that Caddo Parish is missing out on every single weekend when families go to other complexes to play baseball. Mr. Chavez further stated that the YMCA has procured the land and obtained funds from the state and private donors. They are only requesting that the Caddo Parish Commission also partner with them on this endeavor.

Amendment by Mr. Jackson, seconded by Mr. Epperson, *to stipulate that funding must be secured and matched from the City of Shreveport and private donors.*

Mr. Jackson said that his amendment is nothing different than what was required for the Caddo Common Park, Medical School funding, and some of the ARP funding (i.e. Universal Basic Income, Galilee project, etc.). Mr. Jackson said that this project has not gone before the City of Shreveport. He said that the City is moving forward with the sports complex at Stage Works. Mr. Jackson said that his amendment is standard for what has been done in the past.

Mr. Jackson also mentioned that the Commission normally requests name recognition on large investments such as this. He shares the same concerns as Mr. Epperson and Mr. Burrell. Mr. Jackson is also concerned with "building in the peripheral". He also said that there should be consistency in the process of introducing projects such as this.

Mr. Jones said that he is a new Commissioner and does not have the luxury of having the experience as the other Commissioners. He also mentioned that his son plays baseball. Travel ball and AAU Youth has taken away the scouts from coming into the African American community, he said. Mr. Jones said that this is an opportunity for the children to get to the scouts. He feels that this project could spark more interest within the African American community with regards to baseball. Mr. Jones also understands that baseball is an expensive sport, but this is an opportunity for the Parish to expand economic development in this area.

Mr. Johnson said that this is an opportunity for Shreveport/Caddo Parish to finally have an identity. He said that the City of Shreveport is working on a sports complex at Stage Works for basketball courts, tennis courts, and indoor soccer. The Y's proposed project is a sports complex for baseball. He said that this is an investment in the youth to deter them away from crime. He said that the next thing the Commission should be discussing is where there could be 7 on 7 football fields because that is the next

biggest sport when it comes to youth. Mr. Johnson said that Caddo Parish is about twenty years behind when it comes to sports facilities. He suggested building something that will “become a jewel for this community”. Mr. Johnson said that Shreveport/Caddo Parish could be a youth sports mega center.

Call for the Question by Mr. Lazarus, seconded by Mr. Hopkins. Motion carried, as shown by the following roll call votes: AYES: Commissioners Atkins, Chavez, Hopkins, Johnson, Jones, Lazarus, Taliaferro, and Young (8). NAYS: Commissioners Burrell, Epperson, Gage-Watts, and Jackson (4). ABSENT: None (0). ABSTAIN: None (0).

At this time, Mr. Jackson’s amendment failed, as shown by the following roll call votes: AYES: Commissioners Burrell, Epperson, Gage-Watts, and Jackson (4). NAYS: Commissioners Atkins, Chavez, Hopkins, Johnson, Jones, Lazarus, Taliaferro, and Young (8). ABSENT: None (0). ABSTAIN: None (0).

Mr. Jackson said that the motion was not call for the question on all matters. Parliamentarian Young said that it has been the habit of the Commissioners to “call for the question on all motions”.

Mr. Jackson said that his amendment is “not try to kill anything, but let’s be consistent on what we have always done on large capital projects”.

Point of Order by Mr. Chavez. He stated that the question has been called, so there is no more debate. Mr. Johnson pointed out that no one asked the maker of the motion for clarification on their motion. Mr. Atkins said that the floor is back open.

Mr. Burrell said that there is no investment in the urban centers, but development happens outside of the urban areas. Mr. Burrell said that there needs to be investment in the urban areas. He also said that there needs to be development along the bus route, so the children can get to the facilities. Mr. Burrell said that the Stewart Belle Stadium is a historical facility and should be invested in.

Mr. Epperson said that everyone needs to come to the table and discuss a comprehensive program.

Call for the Question by Mr. Atkins, seconded by Mr. Hopkins, *on all remaining motions*. Motion failed, as shown by the following roll call votes: AYES: Commissioners Atkins, Chavez, Hopkins, Johnson, Lazarus, Taliaferro, and Young (7). NAYS: Commissioner Burrell, Epperson, Gage-Watts, Jackson, and Jones (5). ABSENT: None (0). ABSTAIN: None (0).

Mrs. Gage-Watts said that no one has made a motion to send this project to committee. She understands that the majority of the body is in support of this project. She also believes that the Commission does have an obligation to the inner city, and she understands that the Parish cannot “not” do anything. She said that this more than economic development; it is community development, but this is not a rush today because this has been an initiative since 2015. She suggested that this be vetted further before a final decision is made. Mrs. Gage-Watts agreed that the Commission has always included another entity for matching funds. She feels that this should go to committee.

Mr. Johnson pointed out that this did come out of committee, and was discussed at great length. He also said that the matching piece is already done. He said that the State is providing \$1M in funding, and they’ve secured \$900,000 in private funds. He also pointed out that the project is estimated to cost \$9M. Mr. Johnson said that this project has been in the works for a while. He also said that the Commission shouldn’t get bogged down on this project, but start thinking about the next big project.

Mr. Jones said that he is not being stereotypical, but the majority of the youth in the African American community play basketball. He reiterated that his son plays soccer and baseball. Mr. Jones said that baseball used to be America’s pastime, but now its basketball and football. He said that it is about where the interests are. Mr. Jones also mentioned that baseball is a year-round sport, and it will bring people into this community. Mr. Jones also said that there has to be interest in the sport before the Commission spends funds at Stewart Belle Stadium.

Substitute motion by Mr. Jackson, seconded by Mr. Epperson, *to acquire matching funds from the City of Shreveport*.

Mr. Jackson said that his substitute motion is to be consistent across the board. He said that the Caddo Parish Commission has never approved an expenditures of this amount doing capital improvements or capital projects without asking for a match. He pointed out that the application is only requesting \$1.4M, but the ordinance is for \$2M. Mr. Jackson then wanted to know if the Commission is “on the hook for programming” because it isn’t stipulated in the ordinance. Dr. Wilson said that they will not be setting the events at the park.

Mr. Chavez said that the City of Shreveport is investing \$6M in Stage Works for the indoor volleyball, wrestling, indoor basketball, etc. He also pointed out that the complex will be called the Caddo Sports Complex. Mr. Chavez explained that this, along with Stage Works, will become a youth sports

corridor. He would like the Commission to support the \$2M request.

Mr. Epperson reiterated that this should be brought back to the table for further vetting.

Mr. Burrell said that he is in support of any economic development initiative, but there needs to be more investment in the urban centers.

Friendly Amendment by Mr. Hopkins, *that CEA includes proof of \$2M matching funds from private, corporate, or governmental agencies beyond what's already been raised.* Mr. Jackson accepted.

Mr. Chavez wanted to know if this amendment will achieve their goal and not restrain it. Mr. Atkins explained that this is a \$7M-\$9M project, so there will need to be additional funds raised.

At this time, Mr. Jackson's amendment as amended carried, as shown by the following roll call votes: AYES: Commissioners Atkins, Burrell, Gage-Watts, Hopkins, Jackson, Johnson, Jones, Taliaferro, and Young (9). NAYS: Commissioners Chavez, Epperson, and Lazarus (3). ABSENT: None (0). ABSTAIN: None (0).

At this time, Mr. Burrell's substitute motion as amended failed, as shown by the following roll call votes: AYES: Commissioners Burrell, Epperson, Gage-Watts, and Jackson (4). NAYS: Commissioners Atkins, Chavez, Hopkins, Johnson, Jones, Lazarus, Taliaferro, and Young (8). ABSENT: None (0). ABSTAIN: None (0).

At this time, Mr. Jones' original motion as amended carried, as shown by the following roll call votes: AYES: Commissioners Atkins, Chavez, Gage-Watts, Hopkins, Jackson, Johnson, Jones, Lazarus, Taliaferro, and Young (10). NAYS: Commissioners Burrell and Epperson (2). ABSENT: None (0). ABSTAIN: None (0).

Mr. Jackson wanted to know if Administration has reached out to LADOTD. Dr. Wilson said that they are awaiting a response. He also explained that it is rural undeveloped land.
